Minutes of the discussion in the Workshop with the prospective bidders attended for Dredging/ De-Siltation of Rivers/ Channels/ Canals/ Dam Reservoirs under 'No Cost to State the Exchequer Model' on 05.08.2005 at 12:00 hrs at the Ground Floor Conference Hall, Jalsampad Bhawan, Salt Lake, Kolkata-700091

Attendance sheet is enclosed.

Superintending Engineer, CTU started the discussion with a Power Point presentation before the house describing the details of dredging/ de siltation of Channels/Rivers/Reservoirs. and apprised the house of the modifications proposed to be included in the Request for Bid (RFP) presently followed by I&W Dte

Chief Engineer(D&R) narrated the of objectives of the workshop by citing the various perspectives of the dredging/ de siltation of the channels/ rivers under this model. He requested the bidders to come up with their views/comments with regard to present provisions including the proposed modifications of RFP so that a comprehensive RFP might be formulated.

Anirban Mukherjee of Reach Dredging Ltd. stated that:

- i) Additional Performance Security in addition to the Performance Security @ 5% to be imposed for the quoted bid 20% or above the estimated amount instead of 50% or above bid as proposed.
- ii) The bidders, in case of dredging/ de siltation of big rivers, should have dredging/ de siltation experience of 50% of the volume/length of excavation in place of 30% as proposed.
- iii) The bidder should have ownership of machineries and dredgers rather than procuring on hire/lease rent basis, in order to get qualified.
- iv) Turn-over criteria followed at present i.e. cumulative Turn over 30% (60% for the Consortium) of the estimated amount was said to be much less and required to be increased for big estimates.
- v) Time required for completion of work should be mentioned in the RFP.

Dipak Pan of Chandrakona Boiler Ltd. requested to arrange for stopping illegal sale of soil/earth etc. by administrative means to make No Cost Model a success.

Barun Agarwal of Greego Drive Pvt. Ltd. opined that:

- i) DDs of the unsuccessful bidders to be refunded from CTU rather than from the offices of the Executive Engineers spreading over the different corners of the state.
- ii) Ownership of the Machineries and Dredgers etc as qualifying criteria should not be included.
- iii) Additional Performance Security over the Performance Security to be imposed for the quoted bid 20% or above, in place of 50% as proposed.
- iv) I&W Department to make liaison with WBMDTCL for fast opening of Portal to be used by the contractor for paying Royalty, Cess etc.
- v) Time slot of live auction to be restricted to avoid prolonged process of auction.

Ataur Rahaman Mondal of Vasu Enterprise stated that:

- i) Time required for completion of work should be mentioned in the RFP.
- ii) Provision of extension of completion time to be included in the RFP.
- iii) Stopping illegal sale of soil/earth etc. by administrative means.
- iv) Ownership criteria for machineries and dredgers to be avoided as it would frustrate the purpose of wider participation.

Bikash Ghosh of Tulip Brick Field requested to resolve the issue of opening the Portal of WBMDTCL corresponding to the Mouzas involved in the work.

As no other bidder said anything and no point was left to be discussed on, Chief Engineer(D&R) concluded the Workshop with the saying that the opinions/views/suggestions arising out of the bidders would be taken into consideration while formulating the modified RFP.
