7. Chief Engineer (Design & Research)
Irrigation & Waterways Directorate

Sub: *Submission of list of schemes under the concept of annual work plan cycle relating to phase – I proposal for the financial year 2019-20.*

He is aware that with a view to avoid delay in execution of capital scheme works which ultimately result in increase of cost and deferment of benefits to the people, compounding of distress and economic losses, the concept of **Annual Work Plan Cycle** with special emphasis on timeliness and quality, has been introduced since the last two years, so as to ensure fullest utilization of the non-monsoon and non-irrigation working period which is limited to about five months in a year. Based on such a system of advance planning, he is requested to undertake the following exercise:

- (i) Identify the schemes (name with corresponding rough costs) under capital funds for the next financial year of 2019-20, as a part of Phase-I planning, with due regard to priority sectors as per Mission and Vision Statement of the Department, for completion of tender formalities and finalizing plan for commencement of work in the field before the beginning of the financial year 2019-20.
- (ii) It is hence requested to suitably identify important capital work schemes providing benefit to common people based on a realistic planning and **submit the compiled list to this Department in the Performa contained with this letter latest by 30th November, 2018.**
- (iii) The individual Chief Engineer wise allocation would be made known immediately thereafter.
- (iv) The relevant technically sanctioned DPRs are then required to be submitted within 15th January 2019 based on the Departmental allocation (Advance Planning for 2019-20 under Phase-I)

This letter is issued based on the decision taken in the Departmental review meeting taken by the Additional Chief Secretary of this Department.
