1. Technically sanctioned DPR of 72 no. of new schemes at an aggregate cost of Rs. 123.75 crore were initially placed in the meeting for discussion. Further DPR of 1 no. of new scheme was placed in the meeting.
2. The DSC scrutinized all the DPRs' in conformity with the Departmental manual for bank protection works.
3. After a threadbare discussion, single layer boulder pitching with bituminous caulking was accepted as proposed by the Executive Engineer, Siliguri Irrigation Division due to the very high velocity of riverine flow generated in the foothills of the Himalaya, and owing to their flashy nature. It was instructed that two of the schemes bearing SL No. 13 & 14 be executed with double layer boulder pitching laid over graded inverted filter materials. After completion of both types of work, Secretary will inspect the works to determine the performances of the two.
4. Nomenclature of a few schemes was modified to make them commensurate with the capital works and some minor corrections were incorporated. Schemes under SL 26 and 33 were returned due to technical deficiencies.
5. The Chief Engineer (North East) certified that there is no duplication of proposal with any other sources of funding, and all the schemes have been selected by them on the basis of prioritized ground level requirements.
6. Finally, 71 (seventy one) no. of new schemes at an aggregate cost of Rs. 126.15 crore were cleared by the DSC for inclusion under State Development Schemes Budget.
