Training Workshop on Latest Investigations, Repair & Rehabilitation Technologies for Dams
March 2-3, 2023, New Delhi

Dear Sir,

This letter is in reference to a Training Workshop on Latest Investigations, Repair & Rehabilitation Technologies for Dams, March 2-3, 2023, New Delhi.

Implementation and adherence to recently passed **Dam Safety Act, 2021** requires a large capacity building among engineers responsible for operation and maintenance of dams. Considering the large number of ageing dams in India, this is a mammoth task which cannot be accomplished without active participation of dam engineers, State DSOs and industry.

This two day Training Workshop intends to bring all stakeholders under one roof so that everyone can benefit from collective experience and wisdom. I am enclosing the information brochure for this Training Workshop for your perusal.

With this as the background, I request you to depute officials from DSO and dam engineers under your jurisdiction to attend this training workshop which will enable them to discharge their responsibilities equipped with adequate information about the latest technologies and practices in the area of dam safety.

For any further assistance, please feel free to call/WhatsApp Ms. Praggya Sharma at +91-9818568825

Thanking you and looking forward to a positive response

Yours sincerely

Training Workshop

Latest Investigations, Repair & Rehabilitation Technologies for Dams

March 2-3, 2023, New Delhi, India

Organized by:

AF Academy

In association with:

New Delhi

Central Board of Irrigation & Power

ICID • CIID

International Commission on Irrigation and Drainage

INCOLD

Incold

Introduction:

Dams in the country represent a major investment and huge benefits to population in terms of irrigation, power, and flood control. Most of the big dams are very old and regular monitoring and maintenance of these dams is of utmost importance for continuing benefits.

Last decade has seen tremendous development in terms of tools and technologies for dam investigations, instrumentation, repair, and rehabilitation.

Dam safety act 2021 has come in force, which will have a significant impact on dam safety mechanism and how dams are maintained. The Act provides for surveillance, inspection, operation, and maintenance of the specified dam for prevention of dam failure related disasters and provides for institutional mechanism to ensure their safe functioning and for matters connected therewith or incidental thereto. The provision of the act also lays onus of dam safety on the dam owner and provides for penal provisions for commission and omission of certain acts.

The purpose of this workshop is to make the participant aware as to how various latest techniques are applicable to solve various issues related to dams. The interactive workshop will focus on specific issues of participating organizations.

Objectives:

In the event of a dam failure, the economic loss as well as the potential hazard to life and property could be enormous. With new dam construction becoming challenging due to various issues including environmental activism, it's becoming increasingly important to maintain and rehabilitate existing structures. The objective of the workshop is to make participants aware and educated about various technologies available for:

- Investigations of Dams
- Repair & Rehabilitation of Dams

Who Should Attend?

The workshop is extremely useful for:

- Dam owners
- Dam consultants
- Hydropower companies
- Product/ Service providers for dams

Key Elements:

- **Dam Safety Act 2021 & its implications for dam owners**
- **Latest Investigations Techniques**
 - Geophysical
 - Seismic Tomography
 - Electrical Resistivity Imaging & Streaming Potential
 - Ground Penetrating Radar
 - Seismic Techniques (Seismic Refraction, MASW, ReMi)
 - Under water (divers/ ROV)
 - Distributed Fiber Optics Sensor Technology for Monitoring Structure's Health
 - Inspecting Concrete and Masonry Dams
- **Latest Repair & Rehabilitation Techniques**
 - Civil structures rehabilitation
 - Use of geo-membrane
 - Latest grouting chemicals and additives
 - Underwater works
 - Foundation grouting techniques

Organizing Committee:

The organizing committee is chaired by Shri Ashwin Pandya, Secretary General, International Commission on Irrigation and Drainage (ICID) and Former Chairman, Central Water Commission.

Fee Structure:

Government Departments, Ministries	INR 8,000	per participant
Private, PSUs, Boards:	INR 12,000	per participant
Students, Research Scholars:	INR 6,000	per participant

GST@18% is extra as applicable

The fee is inclusive of training notes, morning & evening tea & lunch. A discount of 10% on group booking of 04 or more participants from a single organization is applicable.

Venue:

Hotel The Suryaa, MMA Rd, New Friends Colony, New Delhi, Delhi 110025.

Registration Process:

Prior registration is must by sending email to info@aquafoundation.in. Fee is to be paid through DD in favor of **Aqua Foundation payable at Delhi**. It can also be deposited in following account:

Name of the Bank: ICICI Bank Ltd

Address of the Bank: ICICI Bank, 9 A, Phelps Building, Connaught Place, New Delhi- 110001

Name of the Account holder: AQUA FOUNDATION

A/C no : 000701260885; **IFSC Code:** ICIC0000007; **Swift code:** ICICI NBB CTS
